

Privacy Policy for Ramifyy

Ramifyy is a client-side web application. All data you create is stored locally in your browser using LocalStorage/IndexedDB. No data is transmitted to or stored on any external server controlled by the developer.

- We do not collect, track, or share any personal information.
- Your data stays entirely on your device.
- If you clear your browser storage, your data will be deleted.

By using Ramifyy, you agree to this privacy policy.
